*** TECHNICAL INSPECTION: All cars must be inspected for safety, including tires, seat belts, rear view mirrors, windshield wipers, windshields, and condition of vehicle (no oil burning or leaking). Drivers are responsible for their car inspection, and a form is supplied for this purpose. Convertibles must have a roll bar or cage which may be removable, but secured in place before being allowed on the track. All drivers must be over 18 years of age, have a valid state drivers license, and must wear a proper driver helmet (loaner helmets are available at the track). Race driver suits and shoes are not mandatory. Gasoline will be available at the track for all events. No fuel (other than in the car) is to be transported onto TWS property for safety reasons. Inspections will be performed at the car show on Saturday.

To determine your Run Group Category on Sunday, List your Track and Driving School Experience:
